IMG[®]
N O R W A Y

Experience the *Scandinavian* passion

IMG is located in Sykkylven, Norway – famous for its steep mountains and deep fjords as well as the production and development centre for Scandinavian comfort recliners.

IMG's core commitment is on comfort, quality and innovative design. With generations of experience we create furniture based on the Scandinavian approach to relaxation. IMG's inspiration comes from you and what you require for ultimate relaxation. It is this foundation and focus that assures each piece of our furniture is carefully crafted to meet your needs and expectations.

Our entire range is designed, engineered and tested by our Norwegian product development team and produced in our own specialised and vertically integrated manufacturing facilities in Vietnam and Thailand.

COMFORT *NORWAY*™

Every element of our design has been researched and engineered with a focus on both functionality and comfort all backed by a 10-year warranty. So be rest assured that you have invested in state-of-the-art Scandinavian inspired furniture that lasts.

Please visit one of our retailers and discover the true comfort and body correct support created by IMG.

*A reflective gaze, a moment of pause to appreciate
and respect nature and all her elements.*

*That is the Scandinavian way, to be in harmony with your surroundings,
to coexist responsibly with the environment and acknowledge the place and part
you play in this world.*

*At IMG, we strive to make the world a better place,
one comfortable body at a time.*

the reason why this is Quality

BUILT FOR COMFORT AND QUALITY

Our vision is to create and deliver products that offer an exceptional combination of comfort, quality and unsurpassed value. The human body is the pattern for every piece of our furniture. We study the human body so we can develop and deliver furniture for daily use that balances creative design with comfort, health, ergonomics and space efficiency.

The IMG Design Centre is located in Sykkylven on the northwest coast of Norway, our products are designed from the inside out by our team of Norwegian designers and engineers. Strength, durability, stability, effortless function, beauty and lasting healthy comfort are the guiding stars for all our products.

IMG has implemented a world-class quality management system that ensures all components are routinely tested to make sure they exceed the most stringent European standards.

GREEN AND DURABLE FOAM

The IMG cold cure molded foam process is unique and guarantees absolute comfort, durability and a cleaner greener product. This space age material encases the interior steel frame and sinuous springs allowing for body-friendly curvatures to be covered with glove-fitted upholstery.

ENVIRONMENT

You should also know about our commitment to the environment, and the health of our customers as well as our employees. IMG continuously works towards being as environmentally friendly and technologically practical as possible.

Out of respect for you and the environment, the best thing that we can do is to make furniture that is long lasting. To protect our environment we regularly assess the whole life-cycle of our production with focus on the type of raw material used, production processes, waste and disposal. We work diligently towards achieving reduction in the use of substances that could be harmful for the environment and the health of our employees, partners and customers.

Creating sustainable products by using eco-friendly raw materials, reducing waste factor and energy consumption in our production processes as well as extending the useful lifetime of our products and recyclability are other focal points.

CRAFTSMANSHIP

Within every chair and sofa — you will discover our passion for excellence.

We start by designing all of our seating from the inside, out. Artfully combine the science of ergonomics with old-world craftsmanship and state-of-the-art technology. This technology includes our unique mechanisms, cold-cured molded foam, lamination and distinctly designed inner steel frames.

All IMG materials are selected to ensure optimum performance. Each material has been individually assessed to provide the correct style and comfort for each model. Our skilled team use specialized equipment in combination with years of experience to secure the best outcome.

We show great respect for good craftsmanship and leave our mark on every single piece of furniture – of the person who last handled it. This mark is the fingerprint of a proud producer and is also your guarantee that the furniture from IMG is built to last.

COLD-CURED FOAM CUSHIONING

THIS SPACE-AGE MATERIAL ENCASES THE INTERIOR STEEL FRAME AND SINUOUS SPRINGS, ALLOWING FOR BODY-FRIENDLY CURVATURES TO BE COVERED WITH GLOVE-FITTED UPHOLSTERY.

- A** Computer controlled injection molded cold-cure foam ensures ergonomically correct seating and comfort through-out all areas of the chair.
- B** Adjustable head and neck support gives you the ultimate comfort in all seating positions.
- C** Effortless deep recline.
- D** The interior steel frame with sinuous springs encased in cold-cure molded foam ensures correct back and lumbar support.
- E** Solid hard wood and steel frame.
- F** The advanced mechanism offers both gliding function and 360 degree swivel. This mechanism is sourced from the largest supplier of it's kind in the world.
- G** The integrated footrest can be easily released by pulling the handle placed inside of the arm. To close simply use your feet to press the footrest down and move your body weight forward while sitting.

Strong, stable, solid MDF base.

- **2 to 3 sizes for the perfect fit**
- **100% Top Grain leather**
- **Manual, motorised, battery and lift options available**

Disclaimer: Due to the handmade nature of this product, all measurements are approximate and can vary in size on any individual product up to 2 cm.

Our Modular Seating program is one of the most versatile available. A variety of configurations can be tailored to your specific needs. More than a program, it is a complete system that includes a sofa, love-seat, chairs and home theatre seating combinations as illustrated to the right.

The theatre seating can be custom configured using different arms. This provides a choice of straight rows (for rooms with limited depth) or curved rows for better viewing. All arms incorporate a small convenience table and internal storage.

A unique and flexible Motion sofa system

SPACE EFFICIENT
Our Motion Furniture efficiently utilizes available space. In addition each unit can be placed within a mere 15cm of a wall due to our unique wallsaver mechanism.

Leather & wood

Leather is a natural product and every hide has its own unique characteristics. Colour and grain variations are normal and can vary from hide to hide. Common surface variations include scratches, wrinkles and healed scars. Colour change will occur with time, due to use and the effect of light.

PRIME

PRIME is a top grain aniline-dyed and pigmented upholstery leather with a thickness between 0,9-1,1 mm. It has been slightly corrected.

TREND

TREND is a premium top grain aniline-dyed upholstery leather with a rich and comfortable feel.

ELITE

ELITE is a thick corrected grain leather featuring a pigmented pebbled appearance supported by a protective lacquer that assists cleaning.

SAUVAGE

SAUVAGE is a natural milled top grain, upholstery leather made from the best rawhide selection.

WOOD COLOURS

A number of products with visible wood can be delivered in a wide range of colours.

* Printed colors in this catalogue may appear different from the actual cover colors.
** Cover will be discontinued from time to time.

10 YEAR WARRANTY

10 years on molded foam cushions and steel frames
5 years on mechanisms
2 years on motor and battery-parts
2 years on leather and fabric covers

DESIGNED IN NORWAY

Leather

Linea is a premium top grain aniline-dyed upholstered leather with a rich comfortable feel supported by an extensive colour palette. The advanced upholstery protection of Linea retains the natural characteristics of quality leather. Linea has a subtle fine grain with a thickness of 0.8 - 1.0mm which is ideal for upholstery applications. Its soft waxy feel coupled with a semi-matt appearance adds to its luxurious personality.

- The Mastrotto Linea range is available on all IMG designs.
- Allow an additional 2 weeks for completion.
